

MAKE YOUR OWN SNOWFLAKE

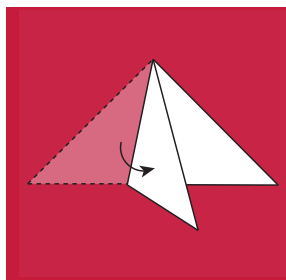

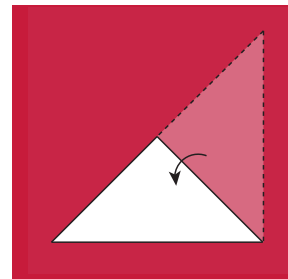

1. Start with a square piece of paper. (Tip: To cut a perfect square from a standard A4 sheet of paper, fold paper into a right-angled triangle; trim off excess.)

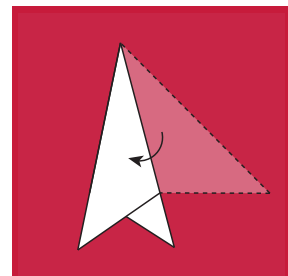

2. Fold paper in half diagonally to make a triangle.

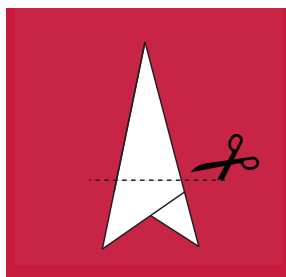

3. Fold paper triangle in half so that the pointed corners meet.

4. Fold paper triangle in thirds, overlapping the left hand pointed corner over the triangle.

5. Overlap the right hand pointed corner over the triangle. (Note: You may need to adjust these folds a little to get the sides to match up, so don't crease the paper until the folds are just right.)

6. Trim the pointed ends so the paper triangle looks as shown.

7. Cut your folded paper with variations of cutouts. Unfold it gently. Don't worry if your snowflake isn't exact: No two snowflakes are ever alike!
